

CONNECT. SELL. ENGAGE.

Collaborate and deliver beautiful interactive proposals and itineraries in a fraction of the time.

CONNECT

Trip Publisher is an online itinerary building tool that makes it quick and easy for travel planners to consolidate fragmented itinerary data and content and deliver a complete itinerary experience. Seamlessly consolidate booking and destination content from various systems in one complete itinerary.

 Try out our [Productivity Boost Calculator](#) to see how much time you can save!

SELL

Manage proposals more efficiently with Trip Publisher to increase conversion rates and continuously add new bookings to your clients trips.

 Check out our [Revenue Boost Calculator](#) to see how much additional revenue you can generate for your business.

ENGAGE

Planning trips with your clients involves an ongoing dialogue and conversation. Trip Publisher makes it simple to stay in sync with your clients and industry partners.

- **Collaborate** in real-time. Travelers and collaborators continue to build on their trip, adding new reservations, notes and experiences.
- **Chat** (in-app and SMS) is available for groups within the context of the trip.
- **Communication** updated with email and push notifications.

UNIQUE TO UMAPPED

-  Integrations with Sabre, Worldspan, Apollo and Amadeus
-  Combine the power of Umapped Trip LinQ and Trip Publisher to set up automated workflows with the option to further customize and edit content in the Trip Publisher
